- MIPS Assembly

INTRODUCTION

I am a fourth-year student majoring in Applied Mathematics and Informatics with knowledge in data structures and algorithms, structured programming, object-oriented programming, and software development. I aspire to gain more professional knowledge through the position of a programmer at your company to fully utilize my abilities and enhance my work expertise.

PROJECT

- **Student management system**

  - Scope: School
  - Role: Team Leader
  - Content: System administration, category management, functional operations (academic management, extracurricular activities), statistical reports
  - Programming language: C#

- **Some games and applications**

  - Scope: Individual
  - Calculator (Programming language: C#)
  - Quiz game, Caro game, Snake game (Programming language: Python)

EDUCATION

- **Hanoi University of Science and Technology (2021 - 2025)**

  - Faculty of Applied Mathematics and Informatics
  - Major: Mathematics - Informatics
  - GPA: 3.93/4.0
  - Encouragement scholarship for 5 consecutive semesters

LANGUAGE

- TOEIC 600
